DETAILED ACTION

Allowable Subject Matter

Claims 9-33 are allowed.

Response to Arguments

In view of applicant's arguments, the rejection concerning the EP '367 publication has been withdrawn. However, the rejection concerning the Japanese '811 publication remains appropriate because the phrase 'about 330 degrees C' does not define over the temperature of -350 degrees C—in the publication i.e. the word 'about' opens the temperature up to similar temperatures and the examiner considers 330 degrees C to be similar to 350 degrees C. The two new rejections made below are the same as those set forth in the foreign parent application.

Claim Rejections - 35 USC § 102

Claims 1-8 are rejected under 35 U.S.C. 102b) as being anticipated by the Japanese '811 publication, the German '311 publication, or the German '732 publication. Each of these publications show the recovery of mercury liquid by breaking fluorescent lamps, heating the mercury, and then cooling the mercury.
